Cuccio Naturalé 29120 Avenue Paine, Valencia, CA 91355

Fortifying Forté Plus Kit A 2- Step Natural Nail Strengthening System

Guaranteed to help grow stronger, longer & healthier natural nails in 2-3 weeks!

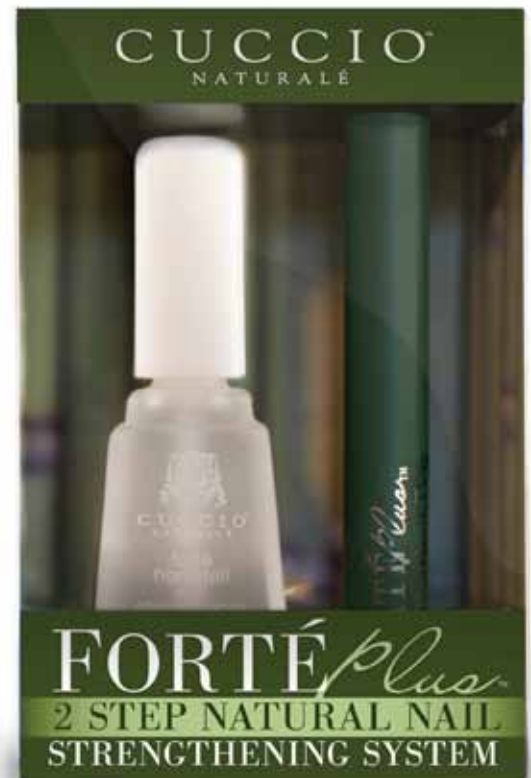

Valencia, CA – August 2, 2010

The botanical two-step system helps grow natural nail in 2-3 weeks guaranteed! During the cold season nails tend to go in to hibernation state, resulting in slower nail growth. The cold air contributes to drier nails; that means less flexibility and ultimately greater breakage resulting in a shorter set of nails during the holidays. That isn't the case if you provide the Forté Natural Nail Saving Winter Wonder Manicure. It provides regular maintenance and usage of the Cuccio Naturalé Forté Botanical Nail Strengthener and the Forté Plus Cuticle Nutrient Pen.

The New Forté Nail Strengthening Kit is a unique nail strengthener that is made with nail protecting and moisturizing botanical ingredients.

- It features horsetail grass, which helps make nails more naturally pliable. By allowing the natural nail to bend more easily, it breaks and cracks considerably less! Made of natural ingredients, it is extremely gentle so it can be used every day indefinitely.
- The Forté Strengthening Top Coat contains NO formaldehyde or toluene that can cause damage by drying out the natural nails.
- The Forté Plus Cuticle Nutrient Pen and Top Coat contains a nail-growing ingredient called Nonychosine-e. Mercaptopropionic Acid, Acrylates Copolymer & Dimethiconol is a combination of ingredients that make up Nonychosine-e. Use this topcoat and the Nutrient pen 2-3 times per week for maximum growth benefits!

Cuccio's Forté delivers the perfect blend of nourishment and flexibility to maintain healthy, strong and long natural nails even against any weather elements. Help keep your clients' natural nails as long in the winter as in the summer by incorporating Forté by Cuccio Naturalé into your services. The durable protective layer is just what clients need to make it happen. Support client home maintenance by retailing the new kit.
