New Spa-to-Go Kits!

Take a piece of the spa home for a mini treatment!

Valencia, CA – September 1, 2010

Don't you just wish your spa treatment could just last an eternity? Who wants to leave the pampering experience and get back into the daily grind? Well, now you don't have to! Cuccio Naturalé came out with a new mini spa kit to take a piece of that spa experience home.

The new Spa-to-Go Kit is packed full of stimulating spa products to indulge your clients' skin & senses. The kit is also a great way to get into the themed service game. The kit contents are great incorporations to an express manicure/pedicure; by just adding a few key products to your service you can raise the perception of your service. The kit is available in two of Cuccio Naturalé's top sellers: Milk & Honey and Pomegranate & Fig.

The kits contain:

- 8 oz. Body Butter (long chain plant silicone for a lasting massage-24 hydration)
- 8 oz. Fine Grit Sea Salt (for gentle exfoliation treatment)
- 1.6g. Cuticle conditioning butter stick (out the door treatment for dry cuticles)
- And a FREE Scentual Spa Elixir 2 oz. to create an inviting environment before your client sits down for a service.

Cuccio's Spa-To-Go kits are great for retailing as gifts during the holiday season, or it can be incorporated into an express service to enhance the service or as a thank you gift for an extra special client!

Available: Now
